

Eco-Friendly Event Guide

1. Paperless Event

By recycling 1 short ton (0.91 t) of paper you can save 17 mature trees. If you use less paper on event, you can still make a difference by recycling the paper you do use. Get sustainable with paperless event!

2. Using Tumbler

Congress Kit includes Eco-friendly bag and tumbler. We encourage to use tumbler alternative plastic bottle to save our earth. Bring your tumbler every day and enjoy water and coffee!

3. Green Card

If you do not use any amenities or change your towel or blanket, please hang over the green card on the doorknob or give it to hotel receptionist. Using green card also help the environment!

4. Recycling

Before you through away the trash, take a minute to find out if you could recycle it. Recycling helps to reduce the pollution caused by waste. Recycling is important to both the natural environment and us.

5. Using Bicycle

Cycling is an environmentally as well as eco-friendly mode of transportation as it does not require any fuel or emitted any poisonous gases. It also improves your health!

<How to use bike in Incheon>

1. Download the application 'COOKIE' to check its location.
2. Check your distance and pay by application.
3. Scan the QR code in bike, lock will be opened.
3. Enjoy your riding!
4. Park the bike in the safe place and lock again.
